duced were the strike to prove a 'failure at other points in the anthracite region.

Mr. Mitchell asserts that he is an advocate of arbitration and opposed to strikes. He declares that the mine workers' officials will step aside and not ask to be recognized if consuited by the mine owners if the officials of these railroad companies will meet committees of their own employees and come to peaceful agreement. Provided, however, that such conference between the various companies and committees representing their own employees will meet in separate halls on the same date.

This provision is inserted because, heretofore, when committees presented grievances to any of the great companies they were met with the argument that the company could not remedy the wrongs complained of because competing companies enforced conditions of employment not more favorable to the mine workers than their own. By holding these separate conferences simultaneously in one city, there could be an exchange of opinions between all of the mine owners and miners whose interests were at stake, thus removing the vossibility of one convpany being pla. A at disadvantage by paying more for labor thar was exacted from their competitors.

MORE TROUBLE FEARED.

Outbreak Is Thought Likely In the Hazelton District.

Philadelphia, Pa., Sept. 21.—Shenandoah's trouble was precipitated by the closing of six collieries there this morning through the efforts of the strike leaders. More will close tomorrow as a voluntary act, it is said, on the part of the Reading company. This is done at the request of Sheriff Toole, who hopes in this manner to avoid further rioting. The outlook at midnight, however, is dubious, as the foreigners are in an ugly mood after the day's happenings.

Hat the pavilion a small crowd had preceded Roosevelt. The battery band was there making music for dancers and there was pleaty of room for everybody. Enough pc-pile were on hand though to set up a yell for the candidate as he walked through the center gate with Governor Wells. The pair made a run for the office of Manager Miller, reaching their goal after being held up twenty times for introductions.

Bathing tickets were purchased and the New Yorker prepared for a plunge

It is estimated that 700 men left the Wyoming valley for the west and the bituminous regions. Two hundred more left this morning. The English speaking miners are going west, while the Slavs, Italians and Polanders are going back to their homes in Europe.

Building Was Crowded Almost to

Suffocation.

If somebody had coughed hard in the Governor Roosevelt turned to Governor Wells with the remark: "By George, in't that superb? This is a day worth having, this magnificent concert coming after a horseback ride." As the party filed out the visitors were introduced to Professor Daynes. They fairly overwhelmed him with enthusiastic compliments and thanks.

Luncheon at the Alta club followed the recital. Among those present were Governor Richards of Wyoming, Senator Shoup of Idaho, Senator Carter of Montana, John Proctor Clark of New York, Colonel Curtis Guild, ir., of Boston, Governor Wells, Secretary Hammond, Chairman Callister, C. O. Whittemore, T. E. Gibbon of Los Angeles, General John Q. Cannon and othera.

CHILLY AT SALTAIR.

Small Crowd Heard Roosevelt at the Resort.

Luncheon was hardly disposed of before it was time to go to the lake. Governor Roosevelt's car and the Pullman for the newspaper correspondents who travel with him, was attached to the train leaving the Rio Grande Wester of the public made up the balance of the public made up the balance of New York.

Mew York.

Much disorder was manifested from beginning to end. People kept stepping a cach others' toes and many were constantly trying to get in or out. The most pronounced disorder was when Mr. Clark attempted to attack Bryan and was nearly hissed off the stage.

It was during this that a man in the audience smashed another for yelling in his ear. A fight was imminent, but the men could hardly get at each other on account of the crush.

The battery band played a programme while the audience was assembling. Thomas Fitch was given a round of applause when he appeared on the stage. He responded with a little bow. By a strange coincidence the soldier-musicians were playing a medley of airs when Governor Roosevelt arrived. By a stranger coincidence, that many in the audience thought boded no good to the candidate, the band had just reached "Marster's in the Cole, Cole Ground," as he stepped on the stage.

Mr. Callister called the gathering to order and introduced General John Q. Cannon as chalrman. General Cannon properly appreciated the honor conferred upon him and took advantage of his opportunity to say so. He was proud to introduce Governor Roosevelt

cannon as chairman. General Cannon properly appreciated the honor conferred upon him and took advantage of his opportunity to say so. He was proud to introduce Governor Roosevelt of New York, "and of the United States of America."

Roosevelt had been applauded when he stepped to the stage, but the cheers that greeted him when he rose to speak were more prolonged than the other demonstration. "I am thrilled by the greeting my fellow Americans have given me this evening," he began, "and it's going to make me alter the special I had intended to make to you.

"I came here intending to talk to you a little about the trusts. But in the last two minutes while sitting here looking at you and your motto: 'One country, one flag,' I have concluded to take for my text: 'Civis Romanus sum,' I am a Roman citizen.' I am going to say a few words to you on' I am an American citizen!' I am going to tell you what it ought to mean, what it does mean and what it shall mean.

"There are men of such sluggish blood, of such tepid temperament that they don't realize what it is to be an American. Each man and each woman here can never look over these plains and mountains, splashed and seamed as they are with the red of the dwarf maple, without thinking of what this land is and of those who made it—of the lives of the ploneers.

"There is not one of you who should not see vividly before his eyes pictures of the ox trains and mule trains, of bearded men driving them, of the children and the women in the wagons. And then he sees where the homes have come up, the struggles and grim toll of wresting prosperity from an arid wilderness. I hope you think of these things because if you don't, your lives are poorer because you don't think of them."

The speaker then referred to the war

"Don't you think those men are entitled to better treatment for taelr services than to have it stated that they are walking about in idleness?" There were cries of "yes," "yes" and Roosevelt occurred when he spoke of the election of eight years ago when the bemocrats won. There was applause from the galferles and looking up the candidate said, amid laughter: "You weren't so gay four years ago. We have been bound together again and in the last four years we have dragged you gentlemen up with us."

Shabby Treatment of Southern Rid-

ers Who Came to Take Part.

There was a great roar from those southern riders who broke their necks to honor Governor Roosevelt yester-

right for the fun of the thing, but the men were a unit in expressing their indignation. They know that the Republicans have a barrel of money, but the suardians of this treasury were too busy to pay any attention to them. They feel that the state committee or some one else has offered them an insult in ignoring their interests and failing to keep their promises. As one put it: "We were suckers enough to come up here under their representations, and for it all we got finally a bunch of hay and some oats for our horses. That sort of thing doesn't make any hit with the boys down our way."

COST OF DEMONSTRATION. Will Take About \$5,000 to Foot the Bills.

The cost of the Roosevelt demonstration in Salf Lake yesterday and last night is placed at \$5,000, to say nothing of the number of votes it cost the party of Hanna. The principal item of cost was that incurred in bringing in the riders from the outside counties. There was no uniform rule adopted in this matter, so that it is not possible to get at the exact figures. Some of the boys were to have had all their traveling expenses paid, the cost of transporting their horses both ways, the keeping of themselves and their horses while they were in the city, the cost of their shirts, and in a few instances it was said they were to be paid \$1.50 per day besides. There was no uniformity in these matters, and for that reason there was considerable kicking among some of the boys last night, the kickers being those who did not fare so well as the others. A very low estimate places the cost of the 250 riders who came in from the outside at \$16 each or \$2.500 for the crowd. of the number of votes it cost the parriders who came in from the outside at \$10 each, or \$2,500 for the crowd.

riders who came in from the outside at \$10 each, or \$2,500 for the crowd.

The committee is thought to have realized about \$100 out of the trip to Saltair, which would be but a drop in the bucket when it came to paying for the theatre, the bands, the decorations, the carriages, the hotel bills, the traveling expenses and the hundred and one small bills that always follow such an event. Governor Roosevelt had his own private car, and the supposition is that the Republican national committee has made arrangements with the different railroad corporations to haul him around without cest to the local committees. It is also stated that the special car that carried the reception committee to Pocatello was decorated by the Short Lifte company and furnished free for the occasion.

But aside from all this a conservative estimate places the cost of the demonstration in Salt Lake alone at \$5,000, and this will give some idea of the lace.

It seems so strange that some people will take medicines about which they really know nothing, some of which might be, and are, really harmful; when on the other hand it is easily proved that over one million women have been restored to health by Lydia E. Pinkham's Vegetable Compound.

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine.

We have thousands like the following addressed to Mrs. Pinkham:

Another Case of Kid- A Letter Which Proves ney, Womb and Bladder Trouble Cured by Lydia E. Pinkham's Vegetable Compound.

"DEAR FRIEND - Two years ago I had child-bed fever and womb trouble in its worst form. For eight months after birth of babe I was not able to sit up. Doctors treated me, but with no help. I had bearing-down pains, burning in stomach, kidney and bladder trouble, and my back was so stiff and sore. The right ovary was badlyaffeeted and everything I ate distressed me, and there was a bad discharge.

"I was confined to my bed when I wrote to you for advice and followed your directions faithfully, taking Lydia E. Pinkham's Vegetable Com-pound, Liver Pills, and using the Wash, and am now able to do the most of my and am now able to do the most of my housework. I believe I should have died if it had not been for your Compound. I hope this letter may be the result of benefiting some other suffering woman. That Lydia E. Pinkham's Vegetable Compound Will Remove Tumor and Cure Other Weakness,

"Two years ago I was a great sufferer from womb trouble and profuse flowing each month, and tumors would form in the womb. I had four tumors in two years. I went through treatment with doctors, but they did me no good, and I thought I would have to resort to morphine.

"The doctor said that all that could help me was to have an operation and have the wornb removed, but I had heard of Mrs. Pink ham's medicine and decided to try it, and wrote for her advice, and after taking her Vegetable Compound the tumors were expelled and I began to get stronger, right along, and am well as ever before. Can truly say that I would never had gotten well had it not been for Lydia E. Pinkham's Compound." — Mary A. Stahl, Watsontown, Pa.
